

Alcuni credono che in scienza sia competente a parlare solo chi ha un livello di specializzazione che essi hanno prescelto. Ma una tesi scientifica si giudica solo dalla sua struttura formale e dai dati portati a supporto.

“È tutto inutile, fatica sprecata, chi è convinto non cambia idea, meglio insultarlo e basta”. Invece penso che davanti a persone che vivono le cose come una fede e fanno il tifo (segno di ignoranza, certo), ce ne sono tante che hanno veri dubbi e preoccupazioni. Si fa per loro.

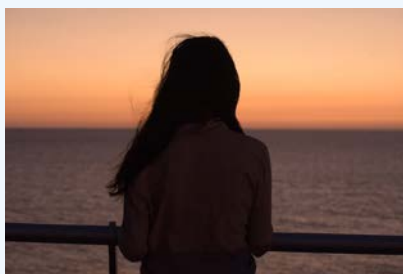

Grazie per il suo lavoro, leggo i suoi articoli sempre volentieri. Sono un ex no-vax (anche se mi definivo uno prudente) e anche grazie al suo contributo, sono tornato alla ragionevolezza. ██████████

Pope Francis, who has been vaccinated, says the Covid vaccines are “morally acceptable” and can be used by Catholics “in good conscience.”

[@JamesSurowiecki](#) | [James Surowiecki](#) | 20.10.2021

The cut to home health care won’t get any attention, but this should be among the last things to cut. Older ppl and disabled ppl need access to good home health care in order to live at home and stay out of institutions. We should be spending more, not less.

How to define the Standard of Care when there is no standard? Findings emerging from several clinical trials regarding the efficacy and safety of pharmacological intervention for COVID-19 might be jeopardized by the quality of control arms.

TABLE 1 | Active agents allowed in the studies with standard of care including treatments under investigation for COVID-19 (SOC+).

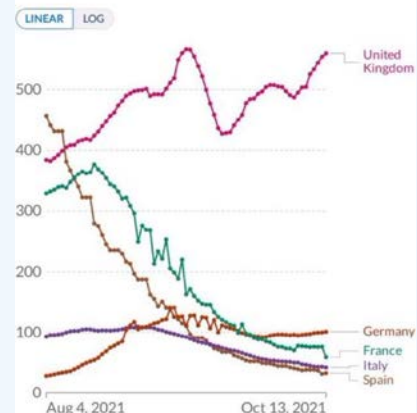

Class of drugs	Drugs	No. of studies	
Aminoquinolines	hydroxychloroquine	24	
	Chloroquine	3	
	Antiviral	Oseltamivir	7
		Remdesivir	5
		ritonavir	3
	Antibiotics	Lopinavir/ritonavir	20
		Atazanavir/ritonavir	2
		Umifenovir	4
		Darunavir/cobicistate	1
		Lopinavir	2
Others, unspecified		19	
Glucocorticoids	nitazoxanide	3	
	azithromycin	16	
	Ceftriaxone	2	
	levofloxacin	1	
	moxifloxacin	1	
	doxycycline	1	
	others unspecified	27	
Vitamins And Minerals	hydrocortisone	1	
	others unspecified	26	
Immunosuppressant	vitamin C	4	
	vitamin D	4	
	zinc	2	
Immunostimulants	Tocilizumab	8	
	anakinra	1	
	plasma Conv	4	
	interferon alpha	4	
Anticoagulants	interferon beta	1	
	Heparin	9	
	others unspecified	5	
Others Therapies	NSAID	1	
	naproxen	2	
Others Therapies	others unspecified	7	
	paracetamol	7	
	Oxygen	20	
	ivermectin	1	
	antifungal drugs	1	
Chinese herbal therapy	4

A luglio nel Regno Unito hanno deciso di far finta che la pandemia fosse finita e togliere di mezzo mascherine e distanziamento. Questo è il risultato.

Daily new confirmed COVID-19 cases per million people

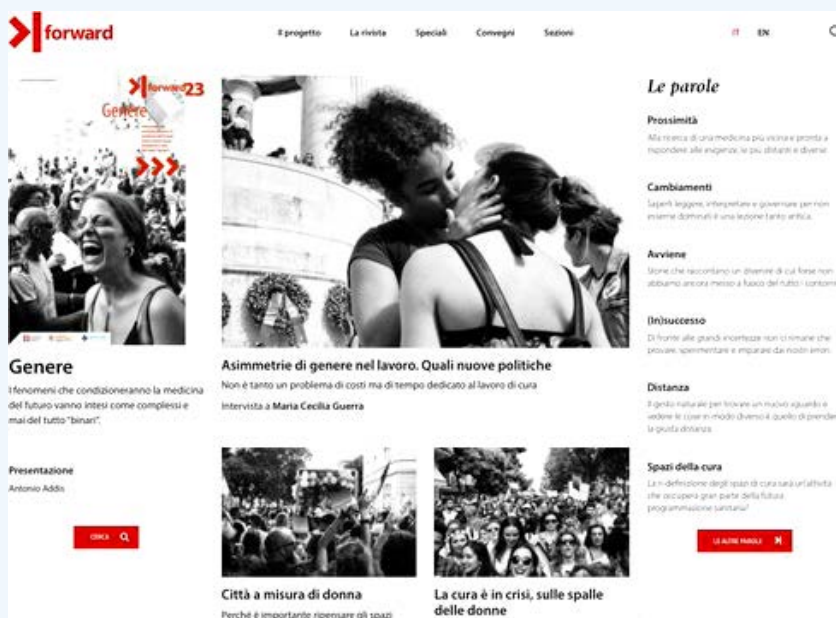

Shown is the rolling 7-day average. The number of confirmed cases is lower than the number of actual cases; the main reason for that is limited testing.
