

Sai quando indossi un pantalone comprato almeno 35 anni fa, a Via del Vantaggio, in un negozio che non esiste più da circa 25 anni, e quel pantalone presso di te è testimonianza e riprova che c'è stato un mondo prima di questo, dove tu eri vivo e facevi cose e compravi cose.

We need an exit ramp off the highway to climate hell. We have control of the wheel. The 1.5 degree limit of global warming is still just about possible. But we need to fight harder. Now.

A Sant'Anna di Stazzema i nazifascisti uccisero 560 civili. Era il 12 agosto 1944. Ada Battistini, 13 anni, fu risparmiata da un giovane soldato tedesco che sparò a una pecora. Adesso Ada è morta. Moriranno tutti quelli che sanno. E sarà ancora più facile rimuovere, smemorare

'Exhausting': Author finds another's name on an Elsevier book chapter she wrote

When Ina Vandebroek read the latest edition of *Pharmacognosy*, an Elsevier textbook to which she contributed a chapter for the 2017 edition, she was shocked. Although she had declined to write for the 2023 update, her chapter was still in the book, under a different author's name.

Ina Vandebroek

"When I first saw this, it was like somebody hit me on the head with a hammer and everything that I'd worked for: all my life was put into question," Vandebroek, an ethnobotanist and senior research fellow at the University of the West Indies (UWI) in Kingston, Jamaica, told Retraction Watch. "This shakes my foundation of what I think science should stand for."

JULIAN ASSANGE IS FREE

Julian Assange is free. He left Belmarsh maximum security prison on the morning of 24 June, after having spent 1901 days there. He was granted bail by the High Court in London and was released at Stansted airport during the afternoon, where he boarded a plane and departed the UK.

This is the result of a global campaign that spanned grass-roots organisers, press freedom campaigners, legislators and leaders from across the political spectrum, all the way to the United Nations. This created the space for a long period of negotiations with the US Department of Justice, leading to a deal that has not yet been formally finalised. We will provide more information as soon as possible.

After more than five years in a 2x3 metre cell, isolated 23 hours a day, he will soon reunite with his wife Stella Assange, and their children, who have only known their father from behind bars.

WikiLeaks published groundbreaking stories of government corruption and human rights abuses, holding the powerful accountable for their actions. As editor-in-chief, Julian paid severely for these principles, and for the people's right to know. As he returns to Australia, we thank all who stood by us, fought for us, and re-

mained utterly committed in the fight for his freedom. Julian's freedom is our freedom.

O mundo está um pouco melhor e menos injusto hoje. Julian Assange está livre depois de 1.901 dias preso. Sua libertação e retorno para casa, ainda que tardiamente, representam uma vitória democrática e da luta pela liberdade de imprensa.
